

§ 2812.3-5

§ 2812.3-5 Use by the United States and its licensees of rights received from a permittee.

The use by the United States and its licensees of any of the rights received from a permittee hereunder shall be limited to that which is necessary for management purposes, or to reach, by the most reasonably direct route, involving the shortest practicable use of the permittee's road system, a road or highway which is suitable for the transportation of forest products in the type and size of vehicle customarily used for such purposes and which is legally available for public use for ingress to and the removal of forest products from Government lands or from other lands during such periods of time as the timber thereon may be committed by a cooperative agreement to coordinated administration with timber of the United States. However, the type and size of vehicle which may be used by the licensee on the permittee's road shall be governed by §§ 2812.3-7 and 2812.4-3.

§ 2812.3-6 Duration and location of rights granted or received by the United States.

The rights-of-way granted by the United States under any permit issued under § 2812.6, subject to the provisions of § 2812.7, will be for a stated term or terms which may vary for each portion of the right-of-way granted; such term or terms will normally be coincident with the probable period of use for the removal of forest products by the permittee and any successor in interest of the various portions of the right-of-way requested. In the same manner the permit will also state the duration of the rights of the United States to use and to permit its licensees to use, and the location by legal subdivisions of, each of the various portions, if any, of the roads, rights-of-way, and lands which a permittee hereunder authorizes the United States and its licensees to use; and, similarly, the duration of such rights received by the United States will normally be coincident with the probable period of use for the removal of forest products, by the United States and its existing and prospective licensees, of such roads, rights-of-way, and lands.

43 CFR Ch. II (10-1-03 Edition)

§ 2812.3-7 Permittee's agreement with United States respecting compensation and adjustment of road use.

(a) Where the United States receives rights over any road, right-of-way, or lands, controlled directly or indirectly by a permittee, the authorized officer will seek to arrive at an advance agreement with the permittee respecting any or all of such matters as the time, route, and specifications for the development of the road system in the area; the total volume of timber to be moved over such road system, and the proportion of such timber which belongs to the United States or is embraced in a cooperative agreement for coordinated management with timber of the United States managed by the Bureau; the consequent proportion of the capital costs of the road system to be borne by such timber of the United States or embraced in such cooperative agreement; the period of time over, or rate at which, the United States or its licensees shall be required to amortise such capital cost; provisions for road maintenance; the use in addition to the uses set forth in § 2812.3-5 which the United States and its licensees may make of the road system involved, a formula for determining the proportionate capacity of the road system or portions thereof which shall be available to the United States and its licensees for the transportation of forest products; the amount and type of insurance to be carried, and the type of security to be furnished by licensees of the United States who use such road; and such other similar matters as the authorized officer may deem appropriate. To the extent necessary to fulfill the obligations of the United States under any such advance agreement, subsequent contracts for the sale of timber managed by the Bureau and tapped by such road system, and subsequent cooperative agreements for the coordinated management of such timber with other timber, will contain such provisions as may be necessary or appropriate to require such licensees to comply with the terms of the advance agreement. Where such an advance agreement between the United States and the permittee includes provisions relating to the route and specifications

Bureau of Land Management, Interior

§2812.4-1

for extensions of the road system involved, the authorized officer may agree that upon the filing of proper applications in the future the applicant or his successor in interest shall receive the necessary permits for such road extensions as may cross lands managed by the Bureau: *Provided, however,* That the applicant shall have substantially complied with the terms of such advance agreement and of the outstanding permits theretofore issued to him.

(b) The provisions of §2812.4 shall not be applicable to any matters embraced in an agreement made pursuant to this section.

§2812.4 Arbitration and agreements.

§2812.4-1 Agreements and arbitration between permittee and licensee respecting compensation payable by licensee to permittee for use of road.

(a) In the event the United States exercises the rights received from a permittee hereunder to license a person to remove forest products over any road, right-of-way, or lands of the permittee or of his successor in interest, to the extent that such matters are not covered by an agreement under §2812.3-7 of this subpart, such licensee will be required to pay the permittee or his successor in interest such compensation and to furnish him such security, and to carry such liability insurance as the permittee or his successor in interest and the licensee may agree upon. If the parties do not agree, then upon the written request of either party delivered to the other party, the matter shall be referred to and finally determined by arbitration in accordance with the procedures established by §2812.4-4. During the pendency of such arbitration proceedings the licensee shall be entitled to use the road, right-of-way, or lands involved upon payment, or tender thereof validly maintained, to the permittee of an amount to be determined by the authorized officer and upon the furnishing to the permittee of a corporate surety bond in an amount equal to the difference between the amount fixed by the authorized officer and the amount sought by the permittee. The licensee shall also, as a condition of use in such cir-

cumstances, maintain such liability insurance in such amounts covering any additional hazard and risk which might accrue by reason of the licensee's use of the road, as the authorized officer may prescribe.

(b) The arbitrators shall base their award as to the compensation to be paid by the licensee to the permittee or his successor in interest upon the amortization of the replacement costs for a road of the type involved, including in such replacement costs an extraordinary cost peculiar to the construction of the particular road involved and subtracting therefrom any capital investment made by the United States or its licensees in the particular road involved or in improvements thereto used by and useful to the permittee or his successor in interest plus a reasonable interest allowance on the resulting cost figure, taking into account the risk involved, plus costs of maintenance if furnished by the permittee or his successor, including costs of gates and gateman. In arriving at the amortization item, the arbitrators shall take into account the probable period of time, past and present, during which such road may be in existence, and the volume of timber which has been moved and the volume of timber currently merchantable, which probably will be moved from all sources over such road. The arbitrators shall also take into account the extent to which the use which the licensee might otherwise economically make of the road system is limited by §2812.3-5. In addition, the arbitrators may fix the rate at which payments shall be made by the licensee during his use of the road. The arbitrators shall require the licensee to provide adequate bond, cash deposit, or other security to indemnify the permittee or his successor in interest against failure of the licensee to comply with the terms of the award and against damage to the road not incident to normal usage and for any other reasonable purpose, and also to carry appropriate liability insurance covering any additional hazard and risks which may accrue by reason of the licensee's use of the road.

(c) Where improvements or additions are required to enable a licensee to use
